

Empira Group is an investment manager for institutional real estate investments specializing in engineering innovative and high-yield investment solutions in German-speaking Europe and the United States. Our real estate and capital market experts cover the entire value creation process – identifying first-class investment opportunities of all property types, ensuring a smooth acquisition process, and experienced asset management. We operate as a sole and reliable point of contact for our investors and build sustainable investment solutions tailored to each investor's unique set of requirements. Integrity and a focus on performance are among our most important values.

In order to further execute our growth strategy, we are looking for a committed and entrepreneurial personality **for our Miami location** as:

Vice President of Development

Position Overview

The Vice President of Development will design and develop multifamily real estate development projects through completion and lease out. The VP will manage the Associates and Analysts in the team, identifying resources needed and ensuring the timely completion of projects.

Your tasks

- Project management of new ground-up multifamily developments with the understanding of the real estate market demands and the firm's asset strategy.
- Source, research, evaluate, assess and coordinate the execution of land acquisition opportunities.
- Gather and document project requirements and ensure completion of the necessary feasibility studies, designs including resource plans, schedules and work plans to produce final project plan.
- Develop financial models to evaluate project viability and analyze/forecast cost estimate data for project proformas.
- Prepare and monitor project-related budgets, proformas, documentation outlining staffing requirements including engagement of consultants and contractors.
- Assess market feasibility, determine financial feasibility, and structure complex transactions.
- Oversee contractors, subcontractors, architects, engineers, tenants, etc. during all phases of the projects.
- Responsible for engagement and procurement of professional services, construction, budgeting, design and permitting approvals, scheduling, cashflow forecasting, contract management, construction implementation and closeout.

Your qualification

- Bachelors' degree in related field with 5-7 years of development experience in commercial real estate. MBA or MS in Real Estate or Finance a plus.
- Experience in delivery of ground-up multifamily development projects and capital projects is required.
- Thorough knowledge of the architectural and engineering design process, building systems, zoning, permitting, commercial construction and real estate development.
- A customer-focused and holistic approach to development, considering a wide-array of stakeholder perspectives including tenants, investors, and internal teams.
- Proven leadership skills that cultivate collaboration and stimulate pro-active communication among internal and external team members.
- Excellent problem solving and analytical skills, and ability to manage multiple, complex projects while meeting deadlines.

Our offer

- Young, dynamically growing company with flat hierarchies
- Dedicated and motivated team
- Attractive compensation and benefits package
- Training and personal development opportunities
- Modern offices in central locations
